

1) Sample data - add to map

- put on Web and then update on occurrence
- R9 will maintain and update; Kevin will need documentation

- by 5/9 - comments

2) PWG - new scoring system

- Doug will go back and reviewing slides from previous work

- report final beginning of May - NTP release to EPA

- have to release publicly

- all other data coming in June will be considered pre-decisional and will not be public until assessment released

- Dave Ting - O&HHA - PWG report would be last bit of information for their PWG - would be considered by DHS in developing DW standards.

- assessment already drafted
